ROOF RACKS BY **TRADESMAN**® MANUFACTURED IN AUSTRALIA

DESIGN BY INSPIRATION

The Wedge-tail Eagle is king of Australian birds, unparalleled in strength of grip and grace of flight. That's why we've incorporated these principals into our 'Wedgetail' rack design, a talon-like locking system with aerodynamic profiles that sweep like the wings of this mighty bird of prey. From the wind deflector to the tail, 'Wedgetail' has you covered!

Looking for a roof rack that complements the look of your vehicle? Enter the new 'Wedgetail' rack, combining the aesthetics and functionality of a new generation composite assembly rack with the traditional strength of our proven manufacturing standards. 'Wedgetail' racks integrate the best of both worlds, you get the stylish design of a full 'Wedge-Wing' mount while also having a functional and robust alloy rack with revolutionary 'Wedge-Lock', glass-reinforced nylon Corners. 'Wedgetail' racks are manufactured in Australia by industry veteran, Tradesman Roof Racks. 'Wedgetail' is the culmination of more than forty years of manufacturing excellence. 'Wedgetail' racks are a world-class product capable of carrying your gear on or off-road.

WEDGE-WING MOUNTS

"Wedge-Wing' mounts are lightweight and sturdy, built for superior weight distribution. Our securing mechanism allows for easy removal and refitting of the rack in approximately ten minutes.

WEDGE-LOCK TECHNOLOGY

Strength for a full load rating off-road with 'Wedge-Lock'. A one-piece injection moulded corner clearance fitted to the perimeter extrusion with double 8mm securing hardware, creating a sturdy joint.

WEDGE-FLOW ACOUSTICS

Wind noise is a thing of the past with 'Wedgetail'. Our 'Wedge-Flow' crossbar profile has a unique shape, designed to reduce wind noise and a custom fit wind deflector to suit your vehicle.
